FEATURED STONES

LEVANTO ROSSO

A distinguished Italian natural stone recognized for its deep burgundy to dark red background intersected by dramatic white and green veining. Its bold character and luxurious appearance make it a preferred choice for statement walls, fireplace surrounds, reception areas, and high-end interior accents. With proper finishing and maintenance, it delivers exceptional elegance and timeless appeal.

EMBRADOR DARK

A premium Spanish marble featuring a rich dark brown background enhanced by intricate light beige and white veining. Renowned for its warmth and sophistication, it is widely used in luxury flooring, wall cladding, bathrooms, countertops, and hotel interiors. Its refined texture complements both classical and contemporary architectural designs.

EMBRADOR LIGHT

Offers a softer interpretation of the Emperador family, characterized by warm beige and light brown tones accented with delicate white veining. Its subtle elegance creates bright, welcoming interiors while maintaining the natural richness of marble. It is an excellent choice for residential and commercial flooring, wall applications, and vanity tops.

CREMA MARVIL

One of Spain's most celebrated marbles, prized for its creamy beige background and gentle, understated veining. Its neutral color palette provides exceptional versatility, allowing it to blend seamlessly with various architectural styles. Frequently specified for flooring, staircases, wall cladding, bathrooms, and luxury hospitality projects, it represents timeless sophistication.

DAINO BEIGE | REYALE

Elegant Italian marbles distinguished by their warm beige coloration and flowing linear veins that resemble natural wood grain. Their harmonious patterns create a calm and refined atmosphere, making them ideal for flooring, wall panels, bathrooms, and premium residential interiors. The Royal variety generally exhibits richer movement and greater visual depth.

CALACATTA GOLD

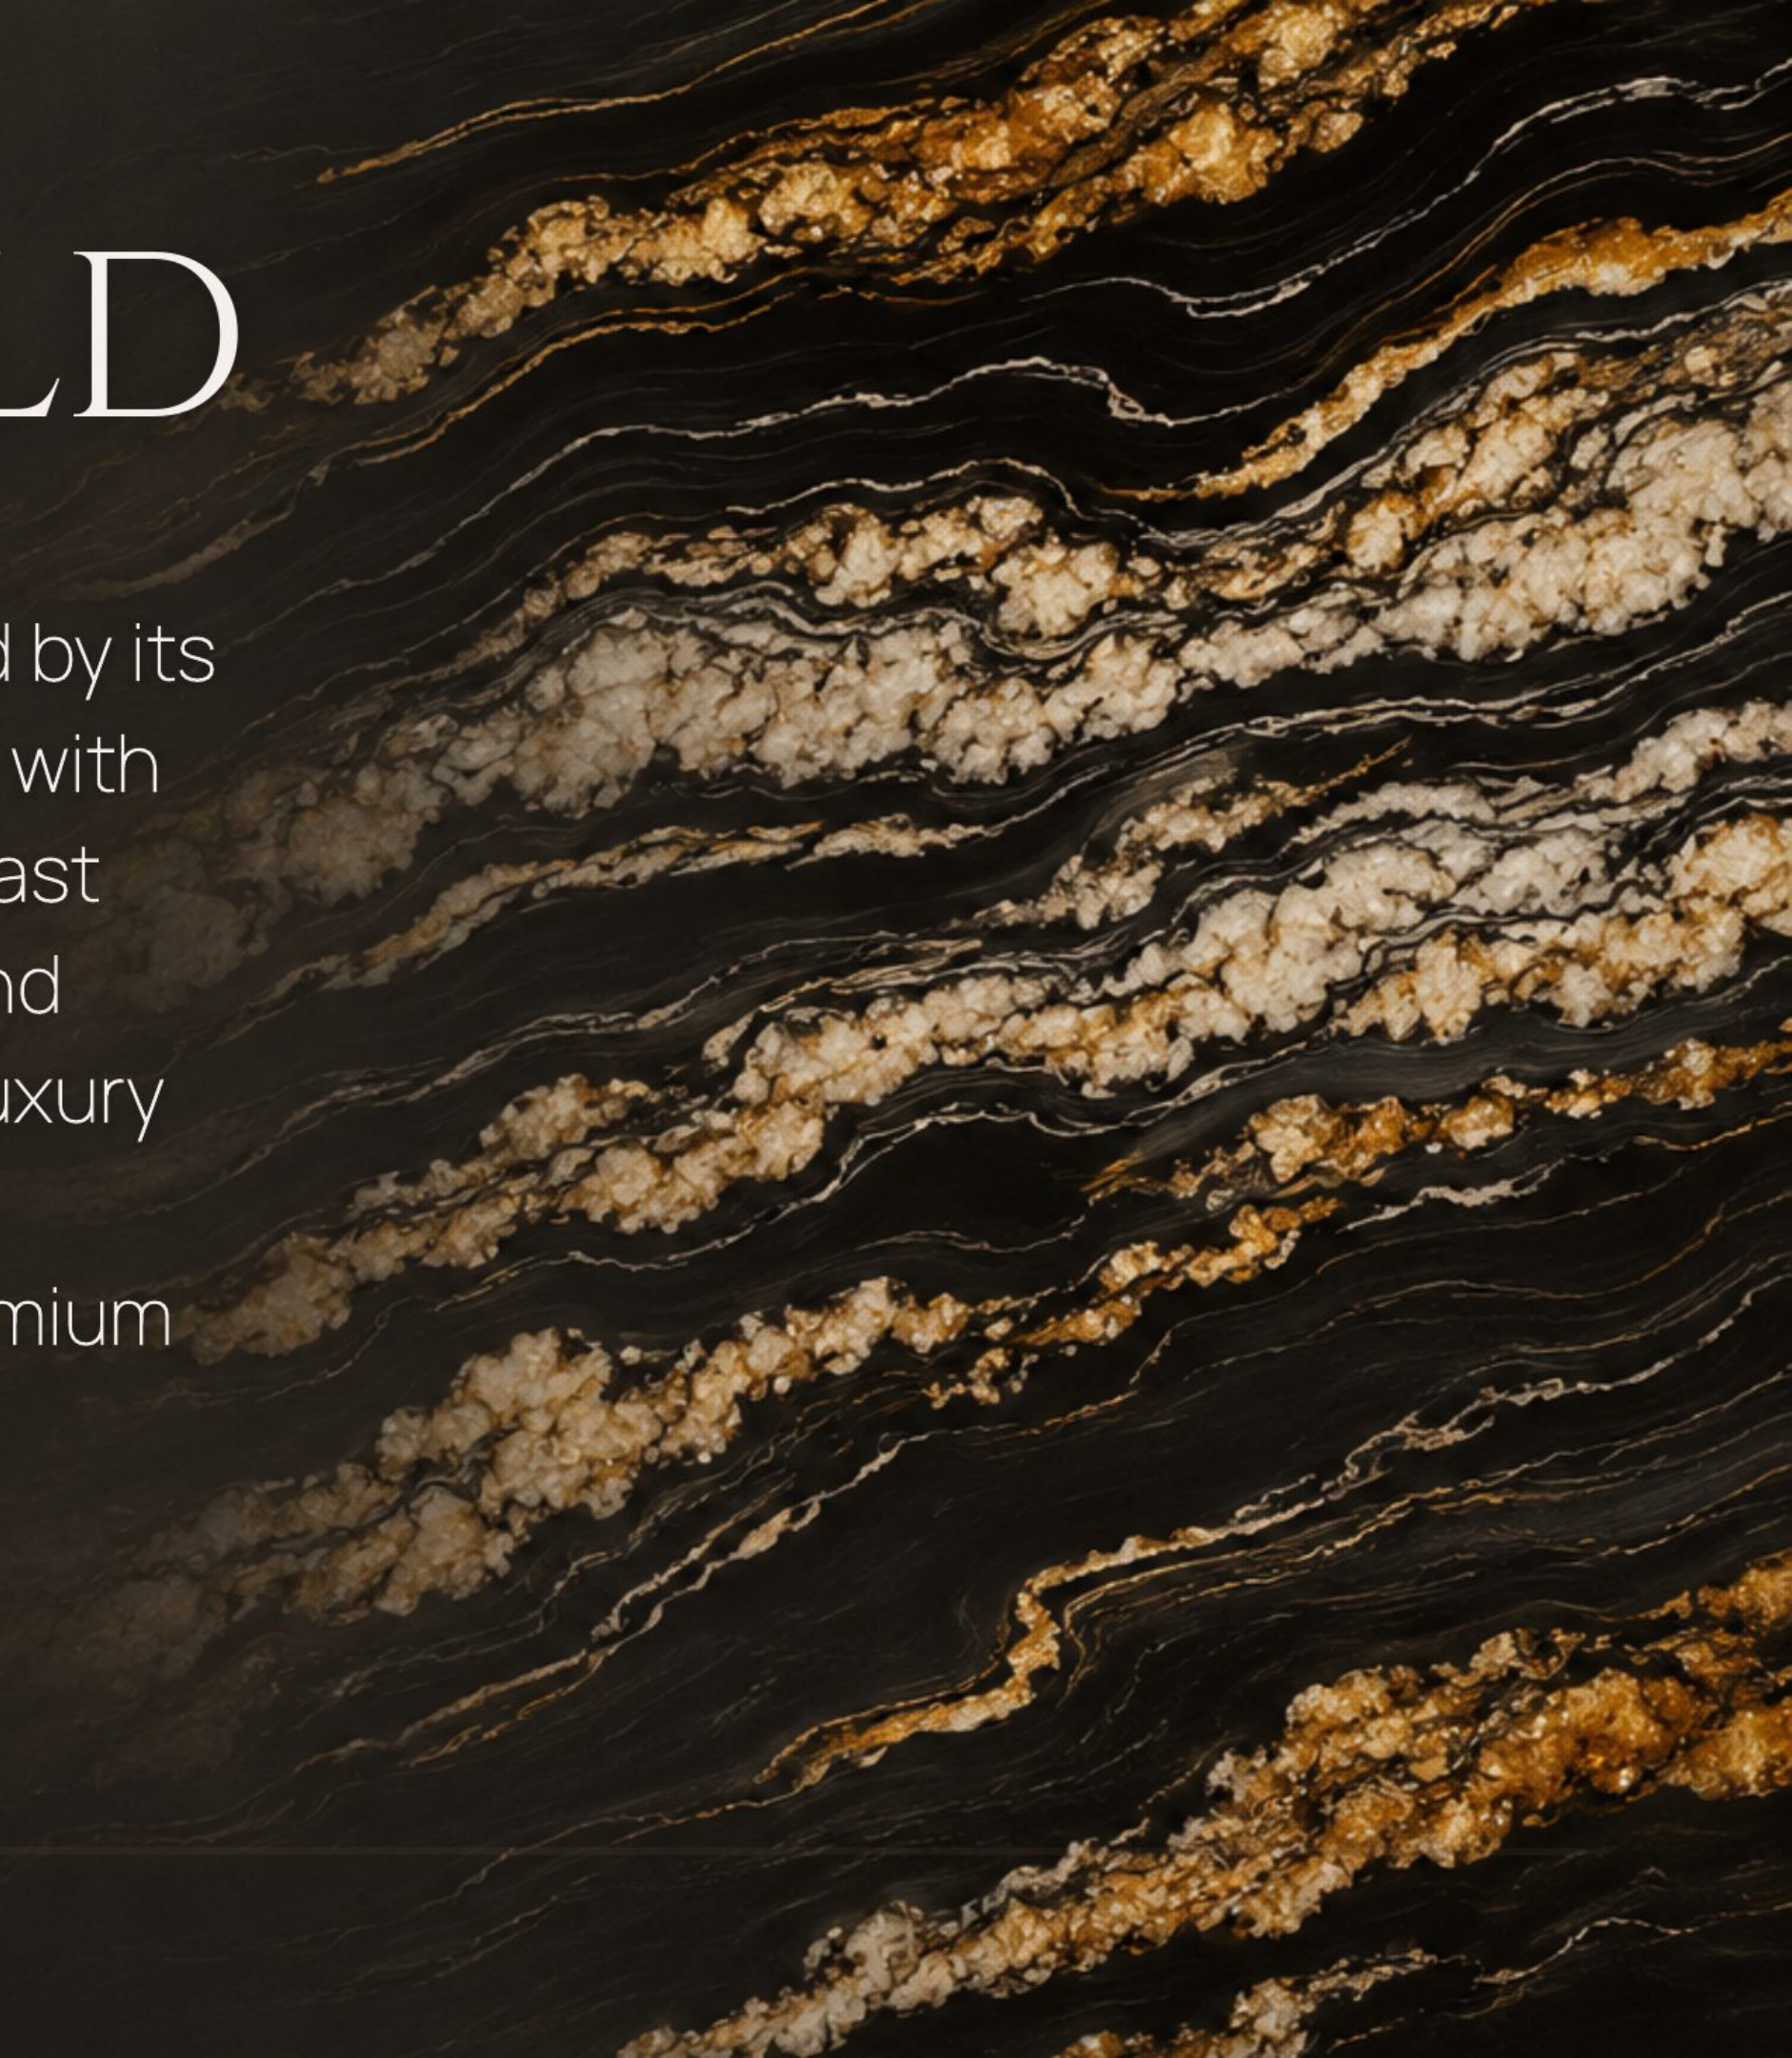

Is among the world's most prestigious Italian marbles, featuring a luminous white background enhanced by bold gray veining enriched with luxurious golden accents. Highly sought after for upscale kitchens, bathrooms, feature walls, and bespoke furniture, it combines rarity, elegance, and timeless architectural beauty, making every slab uniquely distinctive.

GIALLO SIENA

An exclusive Italian marble admired for its rich golden-yellow background accented by warm amber, brown, and white veining. Historically associated with classical European architecture, it brings warmth, luxury, and artistic character to interiors. It is commonly selected for feature walls, columns, decorative flooring, and prestigious restoration projects.

PORTORO GOLD

A rare and luxurious Italian marble distinguished by its intense black background dramatically crossed with brilliant golden veining. Its striking natural contrast creates an unmistakable sense of exclusivity and refinement. Commonly used for feature walls, luxury bathrooms, reception desks, and decorative elements, it serves as a true centerpiece in premium architectural spaces.

BLUE BAHIA

An extraordinary natural stone from Brazil, renowned for its vivid sapphire-blue coloration combined with white and gray mineral formations. Its exceptional rarity and vibrant appearance make it one of the world's most exclusive ornamental stones. Ideal for luxury countertops, statement walls, artistic installations, and bespoke interiors, it offers unmatched visual impact.

BLUE MACAUBAS

An exceptional Brazilian natural stone celebrated for its captivating blue background intersected by flowing white and gray linear bands. Although often grouped with marble for design applications, it is technically a quartzite, offering superior hardness and durability. Its striking appearance and excellent performance make it an outstanding choice for luxury countertops, feature walls, flooring, and high-end commercial interiors.

STATUARIO

An iconic Italian marble celebrated for its brilliant white background and bold, flowing gray veining. Quarried in the Carrara region, it has long been associated with fine sculpture and prestigious architecture. Its timeless elegance makes it a preferred material for luxury kitchens, bathrooms, flooring, and feature walls where sophistication and purity are essential.

TERRAZO

A composite architectural surface created from natural marble, quartz, granite, or glass aggregates bound with cement or resin. Celebrated for its exceptional durability, design flexibility, and sustainability, Terrazzo is available in an extensive range of colors and aggregate combinations. It is widely specified for commercial flooring, wall cladding, countertops, and contemporary interior applications.

TERRAZO

WHITE PALISSANDRO

A refined Italian marble distinguished by its soft white to light gray background layered with elegant horizontal beige and gray veining. Its harmonious linear patterns create a calm, sophisticated aesthetic that complements modern architectural spaces. Frequently used for wall cladding, flooring, bathrooms, and feature installations, it offers understated luxury and timeless appeal.

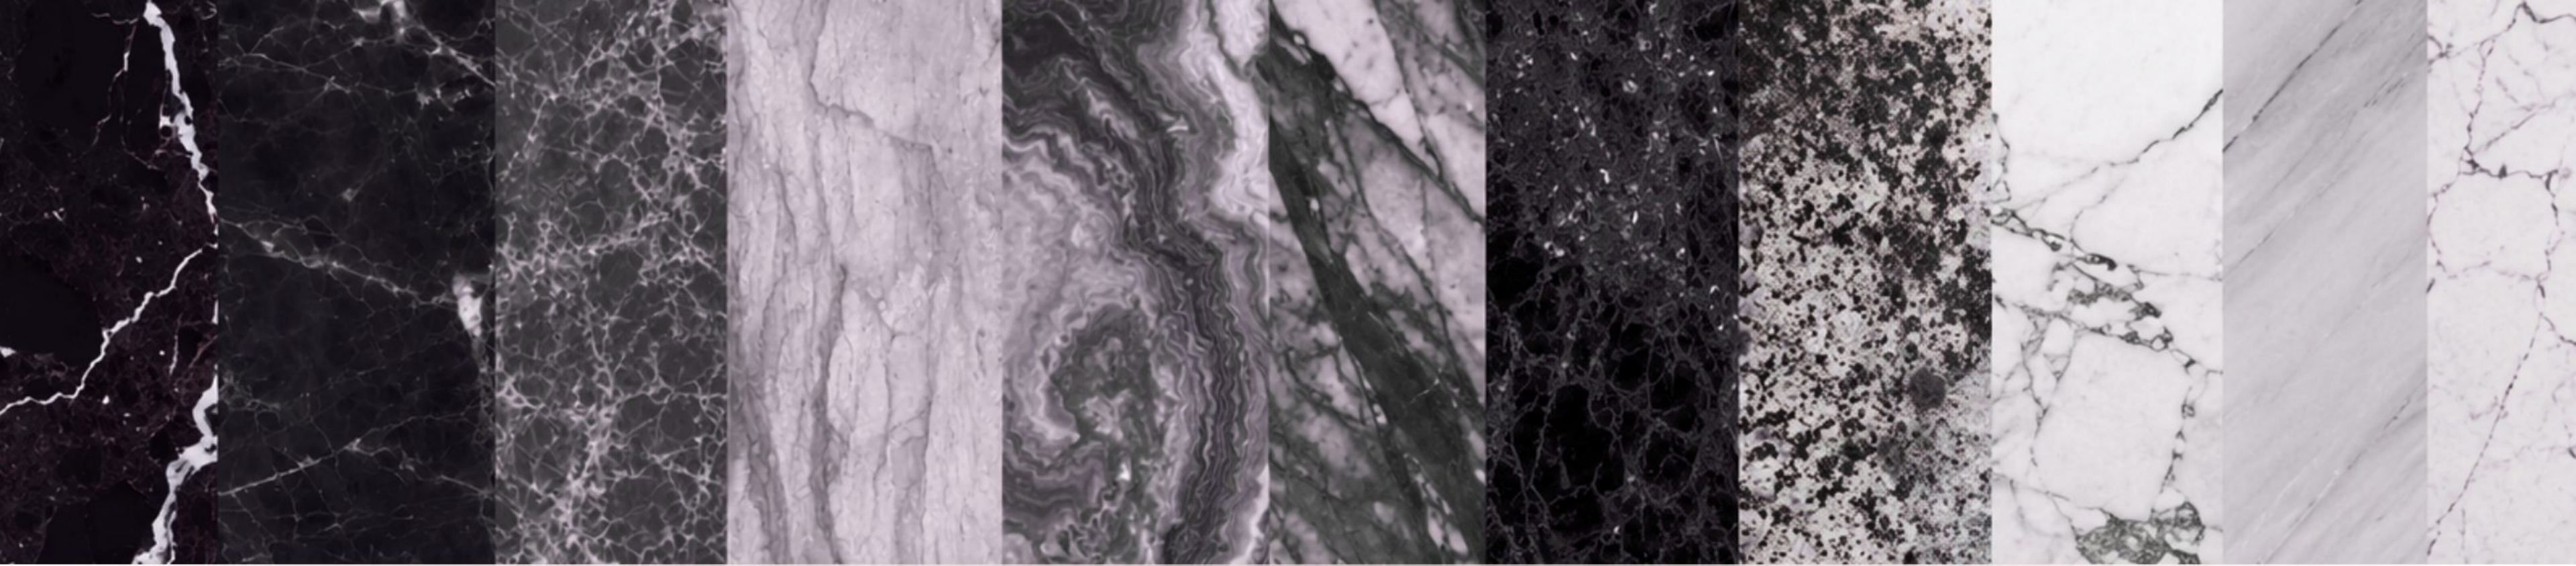

MICHELANGELO

An elegant Italian natural stone characterized by a luminous white background enriched with graceful gray veining and subtle tonal movement. Inspired by classical Italian artistry, it combines purity with refined visual depth, making it ideal for luxury interiors, bathrooms, wall cladding, countertops, and bespoke architectural details where timeless beauty is desired.

Natural stone is more than a finishing material—it is a defining architectural element. From iconic commercial developments to luxurious private residences, our solutions combine beauty, durability, and craftsmanship to elevate every environment.

SELECTED PROJECTS

Luxury stone solutions across commercial, residential and hospitality developments.

A commercial project showcasing precision stone cladding executed with exceptional attention to detail. High-quality natural limestone was carefully installed to create a clean, contemporary façade that combines durability with architectural elegance, delivering a refined appearance suitable for premium commercial developments and modern corporate environments.

05

APPLICATIONS

Luxury villa facade

Designed for a distinguished private residence, this villa demonstrates our expertise in luxury exterior stone applications. Every architectural detail was executed with precision, enhancing the property's timeless elegance while ensuring durability, craftsmanship, and a harmonious balance between classical design and premium natural stone materials.

This large-scale façade project highlights our capability to execute complex architectural cladding systems for commercial developments. Utilizing premium natural stone with meticulous installation techniques, the project delivers a modern, sophisticated exterior that reflects strength, precision, and long-lasting performance.

05

APPLICATIONS

Landscape stonework

Premium natural stone paving and landscape elements designed to enhance contemporary outdoor environments.

A handcrafted marble medallion demonstrating the precision of our waterjet fabrication and installation expertise. The intricate geometric composition combines multiple natural stones into a seamless decorative flooring centerpiece, bringing elegance, symmetry, and timeless character to prestigious residential and commercial interiors.

A custom marble design reflecting the highest standards of precision stone craftsmanship. Manufactured from multiple premium marble varieties and assembled with meticulous accuracy, the intricate circular pattern demonstrates our expertise in producing artistic flooring solutions tailored for luxury architectural projects.

This bespoke backlit onyx installation transforms natural stone into a striking architectural feature. Carefully book-matched and illuminated to enhance its natural translucency, the project creates an elegant atmosphere that combines artistic beauty with advanced fabrication techniques for truly luxurious interior spaces.

TRANSPARENT CHASSIS

Aluminum structure designed for strength and visibility.

LED LIGHTING

Integrated LED strips provide uniform backlighting across the entire surface.

MINI BACKDROP / DOOR

Concealed access panel allows easy maintenance for lights and cables whenever needed.

05 | APPLICATIONS
Bespoke stone table

Crafted from carefully selected natural marble “Onyx”, this bespoke dining table showcases the beauty of continuous veining and exceptional finishing quality. Designed as a functional centerpiece, it reflects our ability to transform premium marble into elegant furniture that combines luxury, durability, and refined craftsmanship.

A feature wall showcasing expertly book-matched natural stone slabs, creating a dramatic symmetrical composition that highlights the marble's unique veining. Precision cutting, careful slab selection, and flawless installation combine to deliver a sophisticated architectural focal point that elevates the surrounding interior.
